

MCPASD Education Foundation: 2018 Impact Report

Who We Are

The MCPASD Education Foundation raises funds to augment programs and activities provided by the district.

As a nonprofit 501(c)(3) organization, our goal is to provide inspiring experiences for our students now, and for decades to come, through teacher innovation grants, student scholarships and a growing endowment.

This report highlights our key 2017-18 accomplishments and 2018-19 goals.

Support the Education Foundation

We're excited to build on the strong momentum in our district and community following the MCPASD referendum passing in November.

The referendum enables the district to increase capacity and upgrade facilities, giving all schools the physical space to support innovative learning, yet there's much more work to be done.

We are grateful to the donors who contributed to our work this year. Your generous support makes a genuine impact on students, teachers and staff in our district. Thank you.

2018-19 Focus Areas

To support the district's efforts to improve student achievement across all demographic groups, we're focusing on equitable practices – the heart of an inclusive, innovative and inspiring learning community.

We will expand innovation grants to teachers and staff, further grow the endowment and fund initiatives including:

1. **Grow Your Own:** Work to increase the number of teachers of color in the district
2. **High School Summer Equity Institute:** Fund participation for students in this national program
3. **Performing Arts:** Provide performing arts experiences to students and increase participation by underrepresented groups

2018 Bus Tour: Awarding grants to MCPASD teachers and staff, and honoring recipients with classroom presentations
